## LET'S CONNECT AT THE 2022 FORUM

This year is all about making lasting professional and personal connections within the industry. We are excited to offer an all-new format that is designed to help our attendees forge lasting connections by facilitating networking before, during, and after the event.

Attendees will learn while earning CE during the numerous breakout sessions, participate in workshops, and be inspired during the presentations from our Keynote speakers.

## FEATURED SPEAKERS

### STEVE BENCH | CONNECTING ACROSS GENERATIONS

In his most popular keynote presentation, Steve tackles stereotypes and builds understanding between generations through a fun and humorous approach! This opening presentation will deliver a refreshing perspective and deeper understanding of our generational differences, and foster an engaging discussion to help strengthen relationships and ultimately improve the culture of your workplace.

### THOM SINGER | UNCOMMON CONNECTIONS: BUILDING A STRONGER INNER CIRCLE

All things being equal, people choose to do business with those they know, like, and trust. But not all relationships in your business or personal life are created equally. The contacts with whom you build long-term and mutually beneficial relationships that impact your life are rare. These "Uncommon Connections" can be cultivated and should be cherished. This closing keynote presentation is an action packed look at how to create business friendships, build trust, and create unlimited opportunities.
