## Items to be discussed:

- What is your land worth? – A look at Nebraska land values
  - How to get ag land appraised
- Communicating with family and what to do when things don't go as planned
- Selling or keeping the ground(?)
- Cash rent and trends,
- Managing farmland

# Nebraska Farm Real Estate Survey

- Annual survey conducted since 1978 of Nebraska agricultural appraisers, professional farm managers, and bankers engaged in the land industry.
  - Preliminary results for land values and rental rates published the second week of March.
  - Full report published the following June.
- Nebraska Farm Real Estate website full access to these resources:  
<http://agecon.unl.edu/realestate>

# Nebraska Agricultural Statistics Districts

# Nebraska Agricultural Average All Land Values – Feb. 1, 2018

Key to Numbers: Average for District, % change from '17

# Historical Nebraska Average Land Value & Corn Price 1978-2017

# Dryland Cropland (No Irrigation Potential) Average Value – Feb. 1, 2018

# Grazing Land (Nontillable)

## Average Value – Feb. 1, 2018

# Center Pivot Irrigated Cropland Average Value – Feb. 1, 2018

## Rating of Factors Influencing Agricultural Land Values in 2018

HOW DO YOU APPRAISE YOUR LAND?

# Appraising land

- What is an appraisal?
  - An appraisal is professional appraiser's opinion of market value of a property such as land, buildings, or a farm.
- Why get an appraisal?
  - To determine the current market value of the inherited farm and understand how local economic and market forces influence real estate in an area.
  - Gain perspective on the type of land and value associated with different improvements.
  - Understand the value associated with improvements such as barns, machine sheds, or irrigation equipment that may be physically depreciated or functionally obsolete.

# How much does an appraisals cost?

- What factors influence the cost of appraisal?
  - Availability of certified general agricultural appraisers serving a region.
  - Size and geographical location of land.
  - Kind of improvements made to the farm such as buildings or livestock facilities.
- What does an appraisal typically cost?
  - An 80 to 160 acre parcel appraisal may cost between \$1,500 to \$2,500 or more depending upon number of improvements.
  - Mid-sized ranch appraisals can cost \$5,000 or more depending upon the configuration of the ground (grazing paddocks, livestock watering systems, or livestock working facilities).

# How to find an appraiser

- Appraisers are licensed to preform appraisals in Nebraska.
  - Public listing of appraisers can be found at:  
<http://www.appraiser.ne.gov/>
  - Select *Appraiser Listing* on the website and then click *Appraiser Listing/Nebraska County Map* to display interactive map to locate an appraisal professional.

## Appraisers: By County

Please select the county from the drop down list or click on a county on the map below.

# How to find an appraiser or land professional

- The American Society of Farm Managers and Rural Appraisers (ASFMRA) is an association of professionals specializing in farm & ranch management and land appraisals.
  - Members can be found at <http://www.asfmra.org/>
  - Select *Find a Land Expert* on the website to display a searchable database of members .

## Quick Search

Enter Name, Property Type, City, State, Keywords, etc. in search field

Area of Expertise

Communications, family relationships, and  
having a plan for the land

# Choices, Choices, Choices

- Sell!
- Keep in family?
  - Keep and farm it?
  - Keep and rent it?
  - Use land manager?
- The parties involved need to agree on that future

## Communication - Important

- When done with the process – are you still going to have a family?
- Most peoples' goal is to hold the family together(?)
  - Don't make that assumption – get that commitment
- Best way is to be open and clear with communications
- Who participates in that discussion?
- Put all options on the table

## Communication - continued

Consider using some sort of family meeting process

- Schedule meeting – not at major Holiday (if possible)
  - Not at Grandma's kitchen table (family dinners)
- Will probably take more than one meeting
- Take notes, record the conversation
- Be sure to include off-farm family

## Communication - continued

Be aware of the sweetheart deals

- Surprises cause problems (story about Grandma and pivot, or on-farm brother)
- Get both sides of every story!

## Communication - continued

- Listening is the Key!
- (Practice) Make partner repeat what they thought you said – to be sure that they heard you, or that you said what you wanted or intended
- Make sure that you understand the other person's point of view  
*(seek first to understand, then to be understood)*
- *Spend plenty of time establishing the 'goal' or vision*
  - *Suggested up to 80% of the time with the vision – or what this will look like*
  - *Envision the Future! (Mark and Nancy story)*

# Communication

1. Allow all to have input
  - \* Know that there will be different expectations based on personality, age and participation
2. Then follow Golden Rule – ‘ye who has the gold makes the rule’

# Negotiations and the Family!

## **Tips and Traps to watch for!**

- Check egos in at the door (remember – keep family together?!!)
- Three rules of negotiation:
  - **1) Prepare, 2) Prepare, 3) Prepare**
- Emotions (drama!) used in negotiation will likely derail the negotiation
  - They divert attention from the matter at hand
  - They can damage a relationship
  - They can be used to exploit

# Negotiation and the Family - continued

**Try working on these areas to defuse emotions within negotiations**

- **Appreciation**

- All people want is to be appreciated - are they being listened to?

- **Affiliation**

- Are all parties being treated as adversaries— or as colleagues (family)?

- **Autonomy**

- Are you free to make the decisions, or are you being blocked?

- **Status**

- Are you being treated as inferior, or given full recognition?

- **Role**

- Are you fulfilled with the role that you have?

# Negotiation Preparation – Best Practices

## **Prepare!**

- Know your BATNA – Best alternative to no agreement
- Know your ZOPA – Zone of Possible Agreement
- Remember that good negotiation is not about ‘winning’
  - Need to create more value than 100%
- How can we create value? Give that thought..
- Put yourself into the other person's shoes – what are they thinking?
  - What is their BATNA or ZOPA?

## Dealing with Farming Heirs

Typically, older generation thinks that fair means equal

- Not necessarily true
- Appropriate for on-farm heir to receive compensation for sweat equity – (building maintenance, non-crop weed control, volunteer tree control, fence maintenance, terrace maintenance, rock on driveway, etc.)
  - Thus the need to be fair
  - Also means that you may not divide assets equally

## Fair vs. Equal

- Over the years, Mom and Dad (generational value) have tended to make the pie slices equal, but is that fair?
  - In some cases – yes
  - Each situation is different – no one solution to this discussion

# Contribution = Compensation

- Four Children
- One farm
- Instead of dividing equally, @ 25% each, consider
- Dividing by 5 or 20% each
  - Farm sibling receives fifth share for their contribution – actually receives 40%
- Others receive 20% instead of 25%

## Is the family plan in place?

- Do you all agree?
- Is it OK to have a majority vote, or a unanimous vote?
- Remember one of my first statements – do we want the family together when this process is finished?
- When do you get help?
  - What can that help look like

## Help with the family plans (when we don't agree)

- Clergy
- Trusted family friend
- Other ag professional in community— like a banker
- Family Lawyer
- Mediation/Arbitration
- Lawsuit(s) – court will decide

Listed from less expensive to most expensive

# Nebraska Cash Rental Rates

## Dryland Cropland Average Rental Rates – 2018 Season (Nebraska Farm Real Estate Survey)

Key to Numbers: Average for District, % change from '17, Range

### Dryland Cropland Rental Rates – 2017 Season (USDA-NASS Survey – Sept. 8, 2017)

### Pasture per Acre Rental Rates – 2017 Season (USDA-NASS Survey – Sept. 8, 2017)

## Cow-Calf Pairs Average Rental Rates – 2018 Monthly (Nebraska Farm Real Estate Survey)

## Types of Cropland Leases

- **Crop Share:** landowner receives percentage of actual crop yield as payment for leasing the agricultural land to tenant. Landowner may share input and production costs of raising the crop.
- **Cash Lease:** landowner receives an agreed upon cash payment amount for leasing the agricultural land to the tenant.
- **Flex Lease:** landowner and tenant set a base cash rental rate which can flex upon actual crop yields, prices, or a combination of the two.

# Options for keeping

- Estimate what the potential income might be
  - From farming it yourself
    - Does it fit the current operation? (next generation)
  - From having it custom farmed
    - Some are having it custom farmed for a % of the production – to motivate farmer to produce
  - From rental
    - Crop share rent
    - Cash rent
    - Flexible cash rent

# Professional Farm Manager

- Consider using if Custom Farming or Renting
- Take care of managing the asset – especially valuable for absentee owners
- Charges are between 6-12% of the rental rate as their fee for management (less on straight cash rent, more on crop share rent agreements or custom farming)
  - Depends on what you are asking them to do
- In some cases, the service is very worth while

## Options for keeping - continued

- Crop Share –(if you do not mind the marketing part)
  - Still a very fair way to rent – for both landowner and tenant
  - Some landlords are taking a smaller percent and paying no input expenses

## Crop Share - continued

- Landlord and tenant share in the expense and share in the risk associated with producing the crop
- Over history a very fair way to rent
- Crop share has lost popularity
  - Landlords do not like to:
    - pay expenses
    - worry about marketing their crop

## Options for keeping - continued

- Cash leases – two types – straight cash leases and flexible cash leases
  - Straight lease means that you get paid XX dollars per acre for the lease per year
  - Flexible lease means that the actual lease is flexed by some variable – usually price and/or yield
    - Consider putting lower and upper limits on the 'flex'

## Critical Issues – for leasing

### Fertility

- Phosphorus – protect both landlord and tenant
- Lime – should be a landlord expense
- Manure application – how often and how much should be discussed

### Irrigation

- Adjust rent if tenant provides some or all of irrigation equipment

# Critical Issues – for leasing

- Hunting rights
  - Allow or retain – must specify
- Stover
  - Allow harvest or retain
  - If harvest, how often
  - Will the rent increase with use
- Grazing
  - Allow, when, how many, animal/fencing needs
- Easements
  - Do they exist and in what terms

# Fillable PDF Leases – AgLease101.org

The screenshot shows the AgLease101.org website. The header has a blue navigation bar with the following links: Home, Document Library, FAQ, For Educators, About Ag Lease 101, and Contact. The 'Document Library' link is highlighted with a callout bubble that says 'Click Document Library'. Below the navigation bar, there are two main sections: 'LEASES PUBLICATIONS' and 'LEASES FORMS'. The 'LEASES PUBLICATIONS' section is highlighted with a callout bubble that says 'Lease Publications'. It contains a list of seven publications, each with a PDF icon and a title: 'Fixed and Flexible Cash Rental Arrangements For Your Farm (NCFMEC-01)', 'Crop Share Rental Arrangements For Your Farm (NCFMEC-02)', 'Pasture Rental Arrangements For Your Farm (NCFMEC-03)', 'Rental Agreements For Farm Buildings and Livestock Facilities (NCFMEC-04)', 'Purchasing and Leasing Farm Equipment (NCFMEC-05)', 'Beef Cow Rental Arrangements For Your Farm (NCFMEC-06)', and 'Farm Building Rental Rate Survey (NCFMEC-07)'. The 'LEASES FORMS' section is highlighted with a callout bubble that says 'Fillable PDF Forms'. It contains a list of six forms, each with a PDF icon and a title: 'Cash Farm Lease (NCFMEC-01A)', 'Crop-Share Farm Lease (NCFMEC-02A)', 'Pasture Lease (NCFMEC-03A)', 'Farm Building or Livestock Facility Lease (NCFMEC-04A)', 'Farm Machinery Lease for Non-commercial Transactions (NCFMEC-05A)', and 'Livestock Rental Lease (NCFMEC-06A)'.

Home **Document Library** FAQ For Educators About Ag Lease 101 Contact

Click Document Library

**LEASES PUBLICATIONS**

Lease Publications

- Fixed and Flexible Cash Rental Arrangements For Your Farm (NCFMEC-01)
- Crop Share Rental Arrangements For Your Farm (NCFMEC-02)
- Pasture Rental Arrangements For Your Farm (NCFMEC-03)
- Rental Agreements For Farm Buildings and Livestock Facilities (NCFMEC-04)
- Purchasing and Leasing Farm Equipment (NCFMEC-05)
- Beef Cow Rental Arrangements For Your Farm (NCFMEC-06)
- Farm Building Rental Rate Survey (NCFMEC-07)

**LEASES FORMS**

Fillable PDF Forms

- Cash Farm Lease (NCFMEC-01A)
- Crop-Share Farm Lease (NCFMEC-02A)
- Pasture Lease (NCFMEC-03A)
- Farm Building or Livestock Facility Lease (NCFMEC-04A)
- Farm Machinery Lease for Non-commercial Transactions (NCFMEC-05A)
- Livestock Rental Lease (NCFMEC-06A)

- No cookie cutter leases, but models do exist
  - [aglease101.org](http://aglease101.org)
- Get legal help if needed
- Have lease reviewed by an attorney

## Summation

- Land ownership is rewarding – if you put in the work
- Know your investment and what you expect the investment to do for you
- Get help when you need it
- Get training – need to know what you don't know
- Family communications can be challenging, but never ignored

# Questions?

Extension is a Division of the Institute of Agriculture and Natural Resources at the University of Nebraska–Lincoln cooperating with the Counties and the United States Department of Agriculture.
